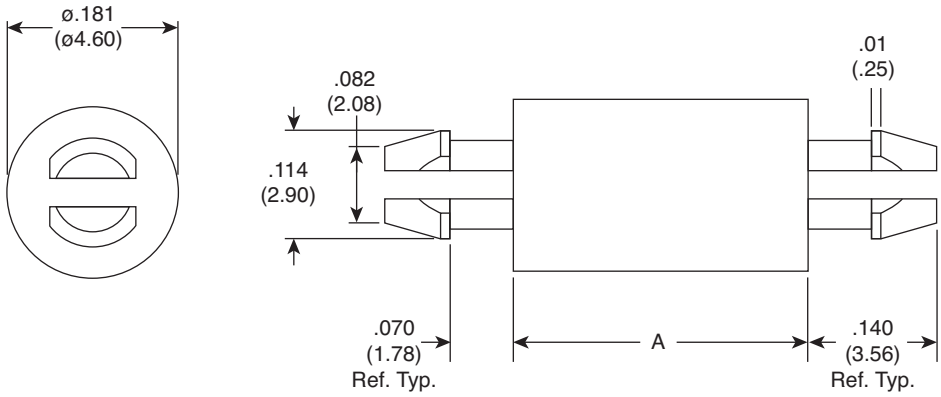
Date Last Revised: 4/2/10

Locking Printed Circuit Board Supports are injection molded in natural Nylon 6/6 material. Economical locking spacers eliminate screws, nuts, and lock washers in mounting P.C. boards on metal chassis or stacking in multiple tiers. Unique locking clips provide a mechanically secure, reusable connection in pre-drilled or punched holes while saving considerable assembly time. The new metric supports are designed for 2.5mm dia. holes and 1.57mm thick panels.



Notes:
Hole Size .098 (±.002) [2.5mm]
Panel Thickness -.062 [1.57mm]
