

PRODUCT HIGHLIGHTS

Non-metallic locknut

A complete non-metallic solution to help prevent corrosion that can lead to downtime.

T&B Liquidtight Systems®

Non-metallic fittings are a great solution for terminating liquid-tight flexible non-metallic conduit to an enclosure in wet and corrosive industrial environments. But adding a metallic locknut can introduce a point of potential corrosion and eventual failure.

This new **nylon locknut** completes an entirely non-metallic solution, helping you **avoid** a potential source of **costly downtime**.

Designed for use with —

- Non-metallic fittings for Type A liquid-tight flexible non-metallic conduit
- Non-metallic fittings for Type B liquid-tight flexible non-metallic conduit
- Non-metallic cable glands and cord fittings

Key features

- Rugged glass-fiber filled nylon construction
- Ideal for use in wet, corrosive industrial environments
- Features NPSL threads for use with NPT fittings
- Continuous operating temperature range of -4 to 212 °F (-20 to 100 °C)
- Currently available in 3/8 to 1 inch trade sizes — with 1 1/4 to 2 inch sizes coming soon

Applicable industries

Chemical

Oil and gas

Renewable energy

Commercial and institutional buildings

Utility

Power generation

Wind power

Civil infrastructure

Rail

Data centers

Food and beverage

Water and wastewater treatment

Metals and mining

Non-metallic locknuts — NPSL

Part no.	Trade size	A — O.D. (in.)	B — Height (in.)
140P	$\frac{3}{8}$	0.98	0.28
141P	$\frac{1}{2}$	1.20	0.28
142P	$\frac{3}{4}$	1.48	0.28
143P	1	1.82	0.28
