

Amphenol®

Amphe-PRB Series

Company Profile

Endicott, NY

Amphenol Industrial Operations

Amphenol Industrial Operations, headquartered in a 30,000 square foot facility in Endicott, N.Y., provides a full range of high reliability power/signal connectors and interconnection systems specifically for the industrial markets including rail/mass transit, process control, automotive manufacturing, heavy equipment, wireless base stations and petrochemical/power generation.

Products include ruggedized-for-industry cylindrical, rectangular, fiber optic, signal and power, RADSOX power and power-to-board solutions, cable and harness assemblies, as well as industrialized versions of Amphenol's MIL-DTL-5015 cylindrical, MIL-DTL-26482 miniature cylindrical and GT reverse bayonet cylindrical connectors. Amphenol Industrial Operations employs more than 1,400 people globally and is ISO9001, TS96949 and MIL-STD-790 certified.

Amphenol Technology (Zhuhai) Co., Ltd

Established in 2007, Amphenol Technology (Zhuhai) Co., Ltd. is a manufacturing facility for Amphenol Industrial Operations, which serves a number of industrial markets. Included but not limited to Factory Automation, Transportation, Heavy Equipment, Alternative Energy, Energy Storage, Server/Data Comm and Power Distribution.

Amphenol Technology (Zhuhai) Co., Ltd. covers an area of 276,000 ft² and is equipped with CNC, plating, injection molding and assembly workshops. This plant specializes in the design and manufacturing of industrial connectors featuring high power, high density, medium to high voltage electrical properties, and harsh environment applications.

With industry leading engineering, design and manufacturing expertise, Amphenol Technology (Zhuhai) Co., Ltd. has earned more than 60 utility patents on its innovative interconnects. Many of the products produced have been certified by independent standards including UL, IEC/TUV, ATEX, IECEx and MA. The facility is also certified to ISO 9001, ISO 14001 and IATF 16949.

Features and Benefits

The Amphe-PRB is a reverse light weight bayonet plastic connector with a perfect fit for use in harsh environment/heavy equipment, solar, alternative energy, electric vehicles, digital communications, energy storage, and industrial automation applications due to its tough rugged design and low-cost single/multiphase options.

The reverse bayonet feature makes this connector perfect for quick disconnect requirements and due to today's high safety standards, the connector comes with finger touch protection as part of a unique design.

Features

Quick Positive Coupling
High Shock And Vibration Resistance
Quick Field Installation
Ingress Protection Rating : IP67
Touch-Proof
UV Rated
TUV/UL Certification
Low Cost

Specifications

Electrical Characteristics		
Rated Current	Contact Size	#8
	Amperes	46A
RADSOK Current	Amperes	60A
Rated Voltage	600VAC	
Dielectric Withstanding Voltage	2000VAC	
Insulation Resistance	5000MΩ	

Targeted Applications

Inverter/Converter
Outdoor Lighting
Data/Telecom
Factory Automation/Process Control

Material and Mechanical	
Components	Material and Coating
Shell	PA66
Coupling Nut	PC
Contact	Copper alloy with silver or Sn plating
Durability	500 cycles
Contact Termination	Crimp

Environmental	
Waterproof Rating	IP67
Operating Temperature	-40°C to +100°C
Vibration	15g

Certification	
UL Certified	

Amphe-PRB Connectors

In response to the dynamic and ever-evolving global market landscape characterized by the proliferation of alternative energy sources, the rise of electric vehicles, the growth of digital communications, the increasing importance of energy storage, and the rapid advancements in industrial automation, there has emerged a pressing need for a reliable, cost-effective, and rugged connector solution designed to meet the complex demands of today's industries.

Amphenol Industrial, a pioneering force in the field of industrial connectivity, has proactively addressed this burgeoning demand by introducing the Amphe-PRB (Plastic Reverse-Bayonet) series. This innovative connector series represents a culmination of our unwavering commitment to technological excellence and our determination to provide solutions that seamlessly blend durability, affordability, and adaptability.

The Amphe-PRB series serves as a testament to our dedication to advancing the state-of-the-art in connector technology. Crafted with precision and engineered with meticulous attention to detail, these connectors have been designed to excel in the harshest of operational environments, ensuring unwavering connectivity performance across diverse sectors.

Amphenol Industrial Products Group invites you to explore the Amphe-PRB series in our product catalog. By choosing this exceptional connector solution, the product that not only aligns with the current demands of the global market but also positions for success in a future where reliability, efficiency, and cost-effectiveness are paramount.

Features and Benefits

Quick Positive Coupling
