

EV-500 Series Test Adapter Kits for Electric Vehicle Charging Stations

Get access to the socket-outlets of a charging station to perform safety and functional tests, while simulate presence of an electrical vehicle

The EV-500 Series Test Adapter Kits are designed to test function and safety of charging stations mode 3 for AC charging. The Adapter Kit allows you to conduct tests in combination with appropriate test instruments like an installation tester (for example the Beha-Amprobe ProInstall Series) and/or Scope Meters (oscilloscope) (for example Fluke 120B Series Industrial ScopeMeter handheld oscilloscopes). With the Adapter Kit, the charging stations can be tested in accordance with IEC/EN 61851-1 and IEC/HD 60364-7-722.

Features & Functions

- **Suitable to vehicle charging stations with charging mode 3**
- **EV-connectors for type 2 and type 1**
- **PE Pre-Test:** With this safety feature the PE conductor will be tested for possible presence of dangerous voltage against earth.
- **Proximity Pilot (PP) state “Cable Simulation”:** With PP State rotary switch the adapter can simulate various current capabilities of charging cables.
- **Control Pilot (CP) state “Vehicle Simulation”:** With CP State rotary switch selector various charging states can be simulated.
- **Separate phase indication by three LED lamps** for easy check if voltage is present.
- **Measuring terminals L1, L2, L3, N and PE** to connect test device like installation tester to perform safety and functional tests.
- **Mains socket offering the possibility** to connect an external load to check if the electric power meter works and counts in the right manner.
- **Simulation of CP error “E”**
- **Simulation of PE error (Earth fault)**
- **Terminals for CP signal output to check communication between adapter (=simulated electrical vehicle) and charging station.** This could be measured by a scopemeter. The voltage level defines the charging modes and the duty cycle of this PWM (Pulse Width Modulation) signal defines the charging current.
- **IP 54 rating** - Dust and splashing water protected
