

Hinges

Technopolymer

MATERIAL

Glass-fibre reinforced polyamide based (PA) technopolymer, black colour or RAL 9016 white (C16), matte finish.

ROTATING PIN

Acetal resin based (POM) technopolymer, black colour or RAL 9016 white (C16), matte finish.

STANDARD EXECUTIONS

- **CFTX-SH**: pass-through holes for countersunk head screws.
- **CFTX-EH**: hexagonal pass-through holes for cylindrical head screws. This hinge with boss or stud can be obtained by means of hexagonal head nuts or screws fitted into the assembly hole.

ROTATION ANGLE (APPROXIMATE VALUE)

Max 200° (-20° and +180° being 0° the condition where the interconnected surfaces are on the same plane).

Do not exceed the rotation angle limit so as not to prejudice the hinge mechanical performance.

To choose the convenient type and the right number of hinges for your application, see the Guidelines (on page).
