<<Outline>>

The JB5 Series connectors are small circular connectors with IP68 waterproof rating and a push-pull mating structure to enable easy insertion and removal. They have high environmental durability and user-friendly designs that can be widely used in medical, measurement, and communication equipment, as well as handheld PCs, scanners and other small equipment.

Features

- Waterproof and dustproof rating: IP68 protection level (when mated, and for the receptacle alone)
- Small 14.8mm diameter available for connectors up to 8 contacts (plug outside diameter: 11mm dia.)
- Push-pull mating structure enables easy one-handed insertion and removal
- Audible and tactile “click” confirms secure locking when mating
- Metal outer parts and ground terminal in the receptacle ensure excellent shielding
- Mis-mating can be visibly prevented with color variation of plug boots
- Connector mating life: 5,000 times
