

MODEL: CEB-2704-L100 | DESCRIPTION: PIEZOELECTRIC DIAPHRAGM

FEATURES

- 100 mm lead wire
- piezo element
- externally driven

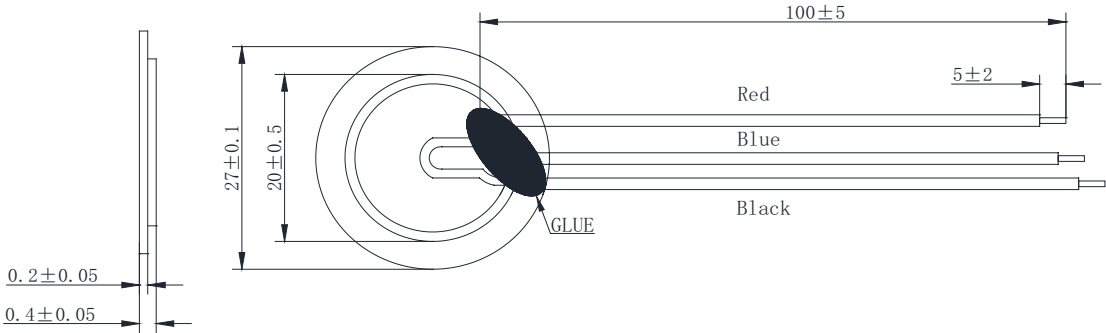

SPECIFICATIONS

| parameter              | conditions/description              | min    | typ    | max    | units              |
|------------------------|-------------------------------------|--------|--------|--------|--------------------|
| operating voltage      |                                     |        |        | 30     | Vp-p               |
| resonant frequency     | only for piezo element without wire | 3,100  | 3,600  | 4,100  | Hz                 |
| resonant impedance     | only for piezo element without wire |        |        | 300    | $\Omega$           |
| electrostatic capacity | at 100 Hz                           | 15,400 | 22,000 | 28,600 | pF                 |
| dimensions             | $\varnothing 27 \times 0.4$         |        |        |        | mm                 |
| weight                 |                                     |        | 2.0    |        | g                  |
| material               | brass                               |        |        |        |                    |
| terminal               | wire leads                          |        |        |        |                    |
| operating temperature  |                                     | -20    |        | 60     | $^{\circ}\text{C}$ |
| storage temperature    |                                     | -20    |        | 70     | $^{\circ}\text{C}$ |
| hand soldering         |                                     | 360    | 370    | 380    | $^{\circ}\text{C}$ |
| RoHS                   | yes                                 |        |        |        |                    |

MECHANICAL DRAWING

units: mm

wire: UL1095 28 AWG
