

ADK-W01 (ZentriOS Wi-Fi Developer Kit)

Ultimate Developer Kit for
ZentriOS

Overview

The ADK-W01 is the ultimate starter kit for developing secure Wi-Fi networking applications with ZentriOS and the ZentriOS SDK.

ZentriOS offers a uniquely encrypted application on a per device level ensuring protection against IP theft and allowing for end product licence management schemes.

The kit includes a 'Piranha' JTAG programmer, a 'Moray106' development board, a 'Monitor' Backpack, as well as a 'Karoo' Breadboard Backpack. Bought as a kit, the ADK-W01 provides a heavily discounted alternative to purchasing the individual components.

X-ON Electronics

Largest Supplier of Electrical and Electronic Components
