

USB C Multiport Adapter - USB-C to 4K 60Hz HDMI 2.0, 100W Power Delivery Pass-Through Charging, 3-Port USB 3.0 Hub, Audio - USB-C Mini Dock - Portable USB Type-C Travel Dock

Product ID: DKT30ICHDP

This USB-C multiport adapter with DP 1.4 compatibility turns your iPad Pro, Surface Pro 7, Google Pixelbook and other USB-C tablets and laptops into a workstation, anywhere you go. The USB Type-C multiport adapter provides 4K 60Hz HDMI (HDR10) video output, a USB Type-C port (data/power), two USB 3.2 Gen 1 Type-A (5Gbps) ports, and a TRRS 4-channel audio port for headset and mic, all through a single connection to your laptop's USB-C or Thunderbolt 3 port.

It offers advanced charging through USB 100W Power Delivery 3.0 and eliminates the need for an attached cable with a direct/flush USB-C connection

The portable docking station features DP 1.4 support from the host side and supports a single HDMI monitor resolution up to 4K 60Hz (4096 x 2160p), when connected to devices that support DP 1.4, to create a powerful workstation.

The USB-C to USB 3.2 Gen 1 hub gives you two USB-A ports (one BC 1.2 charging port) and a USB-C port (shared for power or data) to connect your USB devices.

With support for USB Power Delivery 3.0 (up to 100W), the USB Type-C multiport adapter lets you power and charge your laptop, and power your peripherals when connected to a USB-C power adapter. The multiport adapter itself reserves 8W leaving up to 92W of power for charging. PD 3.0 features Fast Role Swap to prevent USB data disruption when you switch power sources (USB-C power adapter to bus power).

The DKT30ICHDP is backed by a StarTech.com 3-year warranty and free lifetime technical support.

Note: To ensure full adapter functionality, your laptop's USB-C port must support USB Power Delivery.
