

## STM8 Nucleo-32 board

Picture is not contractual.

Product status link

[NUCLEO-8S207K8](#)

## Features

- STM8 microcontroller in LQFP32 32-pin package
- 4 LEDs:
  - USB communication (LD1)
  - Power (LD2)
  - User (LD3)
  - Default (LD4)
- 1 reset push-button
- Board connectors:
  - ARDUINO® Nano V3 expansion connector
  - Micro-B USB connector for the ST-LINK
  - SWIM interface
- Flexible power-supply options: ST-LINK USB  $V_{BUS}$  or external sources (3.3 V, 5 V, 7 V – 12 V)
- On-board ST-LINK/V2-1 debugger/programmer with SWIM connector and USB re-enumeration capability: mass storage, Virtual COM port and debug port
- Comprehensive free software STM8 libraries including a variety of software examples
- Support of a wide choice of Integrated Development Environments (IDEs) including STMicroelectronics free STVD-STM8 (using Cosmic toolchain), IAR™, Cosmic free IDEA

## Description

The **NUCLEO-8S207K8** STM8 Nucleo-32 board featuring the **STM8S207K8T6C** STM8 8-bit MCU provides an affordable and flexible way for users to try out new concepts and build prototypes with STM8S Series microcontrollers in LQFP32 package, choosing from the various combinations of performance, power consumption and features. The ARDUINO® Nano connectivity support makes it easy to expand the functionality of the Nucleo-32 open development platform with a wide choice of specialized shields. The STM8 Nucleo-32 board does not require any separate probe as it integrates the ST-LINK/V2-1 debugger/programmer and comes with the STM8 standard peripheral library, together with various packaged software examples.

# 1 Ordering information

To order an STM8 Nucleo-32 board, refer to [Table 1](#). For a detailed description, refer to its user manual on the product web page. Additional information is available from the datasheet and reference manual of the target STM8.

**Table 1. List of available products**

Order code	Board reference	User manual	Target STM8
NUCLEO-8S207K8	MB1442	UM2391	STM8S207K8T6C

## 1.1 Product marking

Evaluation tools marked as “ES” or “E” are not yet qualified and therefore not ready to be used as reference design or in production. Any consequences deriving from such usage will not be at ST charge. In no event, ST will be liable for any customer usage of these engineering sample tools as reference designs or in production.

“E” or “ES” marking examples of location:

- On the targeted STM8 that is soldered on the board (for illustration of STM8 marking, refer to the STM8 datasheet “Package information” paragraph at the [www.st.com](http://www.st.com) website).
- Next to the evaluation tool ordering part number that is stuck or silk-screen printed on the board.

## 1.2 Codification

The meaning of the codification is explained in [Table 2](#).

**Table 2. Codification explanation**

NUCLEO-XXYYYYKT	Description	Example: NUCLEO-8S207K8
XX	MCU series in STM8 8-bit MCUs	STM8S Series
YYY	MCU product line in the series	STM8S207
K	STM8 package pin count	32 pins
T	STM8 Flash memory size: <ul style="list-style-type: none"> <li>• 3 for 256 bytes</li> <li>• 4 for 16 Kbytes</li> <li>• 6 for 32 Kbytes</li> <li>• 8 for 64 Kbytes</li> <li>• B for 128 Kbytes</li> </ul>	64 Kbytes

The order code is mentioned on a sticker placed on the top side of the board.

---

## 2 Development environment

---

### 2.1 System requirements

- Windows® OS (7, 8 and 10)
- USB Type-A to Micro-B cable

### 2.2 Development toolchains

- STMicroelectronics: free STVD-STM8 (using Cosmic toolchain)
- IAR™: IAR-EWSTM8
- Cosmic: free IDEA

### 2.3 Demonstration software

The demonstration software is preloaded in the STM8 Flash memory for easy demonstration of the device peripherals in standalone mode. The latest versions of the demonstration source code and associated documentation can be downloaded from the demonstration resource section of the STM8 Nucleo board webpage at [www.st.com](http://www.st.com).

## Revision history

**Table 3. Document revision history**

Date	Version	Changes
18-Oct-2019	1	Initial release.

**IMPORTANT NOTICE – PLEASE READ CAREFULLY**

STMicroelectronics NV and its subsidiaries (“ST”) reserve the right to make changes, corrections, enhancements, modifications, and improvements to ST products and/or to this document at any time without notice. Purchasers should obtain the latest relevant information on ST products before placing orders. ST products are sold pursuant to ST’s terms and conditions of sale in place at the time of order acknowledgement.

Purchasers are solely responsible for the choice, selection, and use of ST products and ST assumes no liability for application assistance or the design of Purchasers’ products.

No license, express or implied, to any intellectual property right is granted by ST herein.

Resale of ST products with provisions different from the information set forth herein shall void any warranty granted by ST for such product.
