

Drive roller change instructions for the TE3124, TE3112 & T6112DS printers

1. Introduction

The purpose of this document is to provide instruction for changing the drive roller of the TE3124, TE3112 and the T6112DS printers.

1.1. Affected parts

Standard drive roller Part number CP3965-000
TE3124 Part number CC9352-000
TE3112 Part number CR2120-000
T6112DS Part number CP8122-000

TTC-PRINTER-ALLEN-KEY Part Number CU0621-000, see Figure 1.

Safety Note: Before carrying out any maintenance on printers ensure the power is switched off and disconnected.

2. TE3124/TE3112 Drive roller change

- 2.1. Switch the printer power off, open the printer cover and remove any product and ribbon.
- 2.2. Using the Allen key provided with the printer, remove the three screws holding in the end plate, as shown in Figure 2.

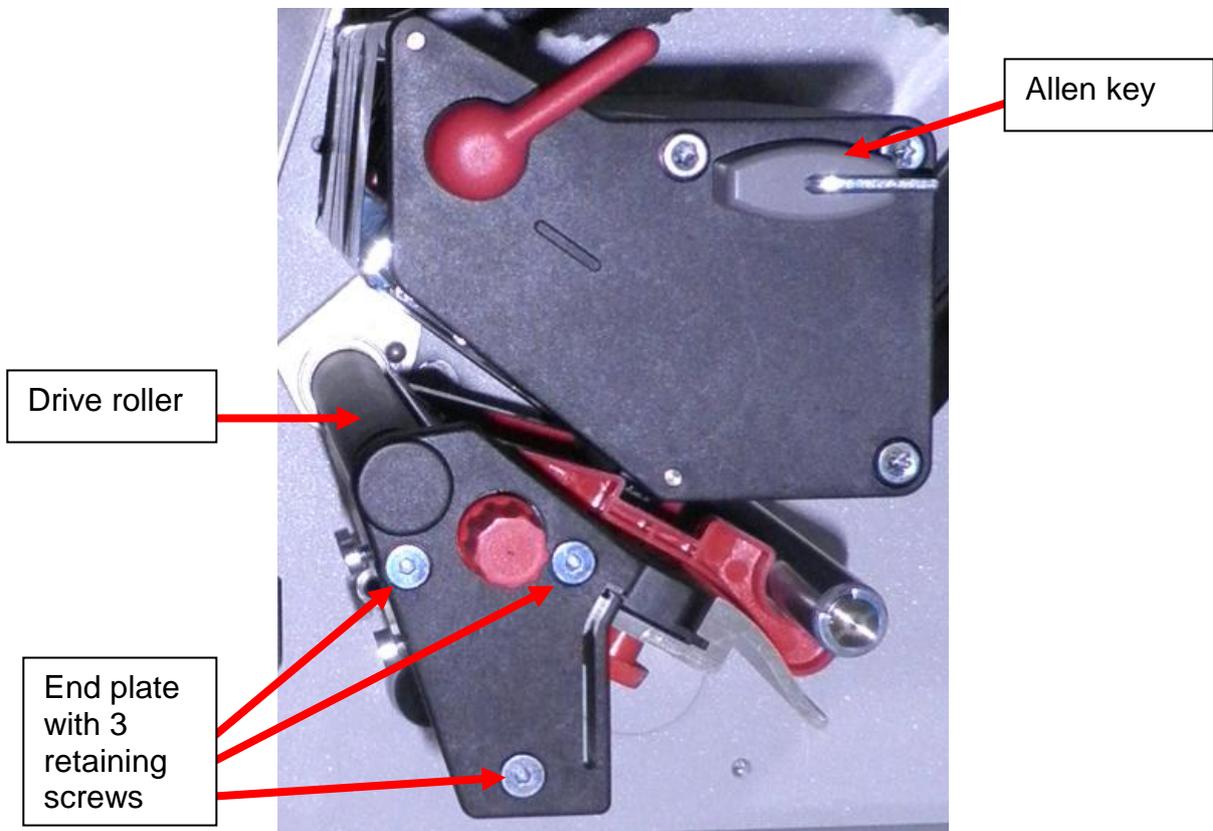

Figure 2 – End plate for TE3124/3112 printers

- 2.3. With the end plate removed the drive roller can be separated from the Hexagonal drive by gently pulling the drive roller laterally away from the printer bulkhead, see Figure 3.
