

950 L HF L-key, metric, chrome-plated, with holding function, 4 x 140 mm

L-Keys for Hexagon Socket Screws

EAN:	4013288207265	Size:	140x25x4 mm
Part number:	05022121001	Weight:	17 g
Article number:	950 L HF	Country of origin:	CZ
		Customs tariff number:	82041100

- The holding function on the long arm keeps screws securely on the tool
- Hex-Plus allows socket head screws to live longer
- Extra-long arm
- High corrosion protection thanks to chrome-plating
- Metric

High-quality L-key for hexagon socket screws with high corrosion protection and extra long lever for high power transmission and working in low positions. The Hex-Plus profile offers larger contact surfaces at the screw head. The notch effect is thereby reduced to a minimum, the destruction of the screw head almost eliminated. Tools from size 3 onwards offer a holding function through a pressed resilient ball.

L-Keys for Hexagon Socket Screws

L-Keys

We questioned the classic L-key design, since all too often the screw head recess is rounded out, meaning screws can no longer be tightened or loosened - and so the user finds the L-key slipping out of the recess. Wera Hex-Plus tools have a larger contact surface in the screw head. The notching effects are reduced and thereby the deformation of the screws. At the same time, as much as 20 % more torque can be applied.

With retaining function on long arm

The clamping of the screw is achieved by a flexible locking ball. The holding function is especially helpful in confined, hard-to-reach spaces, where there is no room for a second hand to secure the screw on the tool.

Hex-Plus

Hexagon screws can endure a problem because the contact surfaces delivering the power from the conventional tool, is transferred to the screw via very small surface areas. The consequence: the screw can become damaged (rounding out). Hex-Plus tools have a greater contact surface that prevents this from happening! At the same time, as much as 20 % more torque can be applied. Good to know: Hex-Plus tools fit into every standard hexagon socket screw!

Surface protection

Chrome-plated hexagon L-keys for outstanding surface protection and long service life. High corrosion protection.

Size identification

The size of each L-keys has been engraved by a laser. In addition Take it easy L-keys have a colour coding according to sizes - for simple and rapid accessing of the required tool. Making it easy to find the right tool.
